Gourd Centerpiece

DO AND DO NOT

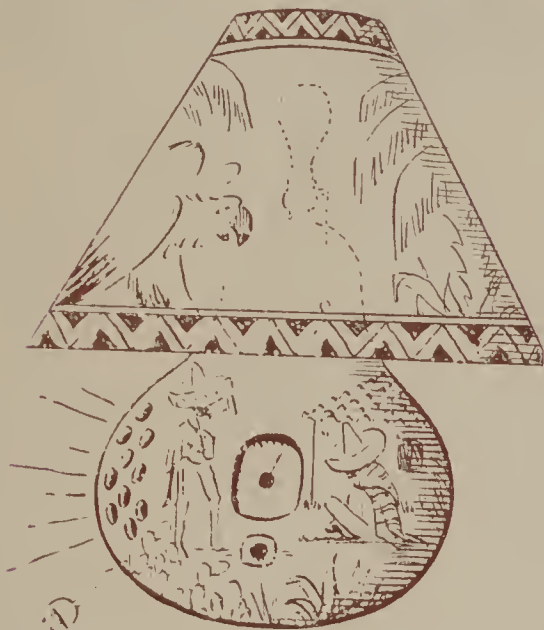

Do not plant too early; wait till soil gets warm and danger of frost has past; do not plant too close, five by ten is close enough; cultivate the first two months.

Gourds will climb trellises, fences and trees, or will grow on the ground, either one is all-right.

Gourds are a necessity in food, in art, in medicine, and they can be used in a thousand different ways. Grow, Carve, Paint and Decorate the gourds for Pleasure and Profit.
